

Knitted Pouffe

You will need approx 600grams chunky yarn.

Hold 6 strands tog throughout. Before you start cut off & put to one side about 2 metres of yarn to sew up with.

Cast on 36 sts.

Working in garter st or stocking st (I did mine in stocking stitch but garter stitch looks good too) until meas 28", 71cm cast off loosely.

Join the cast on & cast off edge together using back stitch this gives a neat, secure seam.

Working first on a long side this will become the top or bottom of the pouffe. Thread the needle with your left over yarn and pass through the end stitch of every second row, tighten up and secure. Stuff with a duvet or pillows. It's best to make a ball of the duvet or pillows before you stuff. Feather & down duvet or pillows work best.

Now repeat the same at the other end tighten & secure until there is no hole in the middle.
